Education

Shri Rawatpura Sarkar Institute of Technology

Bachelor of Science in Computer Science

Technical Skills

Programming Language: Java, C++ ,Data Structure and Algorithms,HTML,CSS,JavaScript

Database Language: MongoDB,MYSQL

Developer Tools: Git,GitHub,VS Code,MYSQL,Postman,Eclipse,IntelliJ IDEA

Technologies/Framework: Bootstrap,React.js,Node.js,Express.js

Soft Skills: Collaboration,Communication,Planning,Teamwork,Time Management,Leadership.

Web Developer Intern-Oasis Infobyte

SDE Intern, —Coding Thinker

Sep2024-June2025

- **Full-Stack Web Development (MERN):** Gained experience in *HTML, CSS, JavaScript, MySQL, and the MERN STACK (MongoDB,Express.js,React.js,Node.js)*
- Demonstrated proficiency in backend development, designing scalable APIs, and developing interactive and user-friendly applications.
- **Project Experience:** Completed projects demonstrating proficiency in HTML, CSS, JavaScript, and the MERN stack (MongoDB, Express.js, React.js, Node.js) .

Web Development Intern—Oasis Infobyte

May 2025 – June2025

- Specialized in **Front-end anf back-end web development**, contributing to projects such as an interactive online exam platform, a dynamic number guessing game, and **a responsive ATM interface** clone using web technologies.
- Demonstrated strong skills in HTML, CSS, JavaScript, and basic backend logic, with a focus on building interactive, user-friendly web applications and applying core principles of responsive design and functionality during the internship.

Projects

Book Management System

github.com/name/repo

- Developed a Book Management System using **HTML, CSS, JavaScript and React** , highlighting my front-end development skills. A Full-stack Book Management System that allows users to add, update, view, and delete book records. Implemented CRUD functionalities used. Desigend an intuitive **Front-end interface** using HTML, CSS, JavaScript and React to ensure a smooth user exeperience.
- Tools Used: HTML,CSS, JavaScript and React

Weather Application

github.com/name/repo

- Weather Application: Developed a Responsive weather forecast application using React.js that fetches real-time weather data from the Oper weatherMap. API. Designed an interactive and clean UI with HTML and CSS and implemented dynamic features like temperature, humidity, wind speed, and weather conditions based on user input (city name)
- Tools Used: Html,CSS,JavaScript and React

Certification

Java with Full Stack web Development – Coding Thinker (Sept 2025-June2025).

Web development and Designing- OASIS INFOBYTE (MAY2025-jUNE2025).
